WAMPES 2026

International Scientific Conference

Good Practice in Water Management Planning

4-6 November 2026 | Kongres Park Liberec, Czech Republic

WAMPES project: Integrating the Concept of Ecosystem Services Assessment into Future River Basin Plans | Project No. SS07010080

Day 1 - Wednesday, 4 November 2026 Opening, field excursion and networking

Time	Programme
13:30	**Participant gathering and welcome – reception Kongres Park Liberec, Jeronýmova 570/22, Liberec, Czech Republic**
14:00-17:00	**Field excursion** Discussion of ecosystem services and their assessment using a model water body

Day 2 - Thursday, 5 November 2026 Main scientific conference

Link for online - https://teams.microsoft.com/meet/3652145252959172?p=f329IjYo6QkOPbpruI

Time	Programme
09:30-10:00	**Participant registration**
10:00-10:30	**Conference opening** *Jiří Schneider* Opening remarks by the organisers and introduction of the WAMPES project
	KEYNOTE LECTURES
10:30-10:50	**European context of water management planning** *Jiří Schneider*
10:50-11:10	**Czech national context of water management planning** *Martin Pavel*
11:10-11:30	**Ecosystem services of water bodies and their importance for water management planning** *CzechGlobe*
11:30-11:50	**How river channel modifications affect flood-wave transformation: a modelling study of four Czech rivers** *Stanislav Ruman*
11:50-12:15	**Discussion** Discussion of the opening lectures
12:15-13:30	**Lunch**

Day 2 - Thursday, 5 November 2026 Scientific programme – afternoon

Link for online - https://teams.microsoft.com/meet/3652145252959172?p=f329IjYo6QkOPbpruI

Time	Programme
	SCIENTIFIC SESSION
13:30-13:45	**Benefits of Water Management Measures** *Mariama Soumah*
13:45-14:00	**Galamsey and its impact to water sources in Ghana** *Scholastica Akalibey*
14:00-14:15	**Streams Lost in the City: Urban Stream Syndrome, Ecosystem Services, and a Czech-Saxon Perspective** *Dana Komínková, Victoria Zueva*
14:15-14:30	**Translating hydromorphological indicators into ecosystem service assessments: evidence from the Bečva River, Czechia** *Tomáš Galia*
14:30-14:45	**Examples of good practice in water management planning** *Jiří Schneider*
14:45-15:00	**Community-Based Water Management and Ecosystem Conservation in Arid and Semi-Arid Kenya** *Issack Mohamedamin*
15:00-15:30	**Coffee break**
15:30-17:00	**Panel discussion** *WAMPES project team* Possibilities of implementation of ecosystem services into water management plans

Day 3 - Friday, 6 November 2026 Stakeholder workshop / accompanying programme

Link for online - https://teams.microsoft.com/meet/3751517265071601?p=yeU245qo01p53pSzuU

Time	Programme
09:00-09:30	**Registration**
09:30-10:00	**Opening remarks and introduction of the WAMPES project** *Jiří Schneider*
10:00-10:30	**Methods for assessing ecosystem services of water bodies** *Jan Babej*
10:30-11:00	**Possibilities for integrating ecosystem services into river basin management plans** *Martin Pavel*
11:00-11:30	**Presentation of other WAMPES project results** *Jiří Jakubínský, Stanislav Ruman*
11:30-12:00	**Discussion**
12:00	**Closing**

Practical information

Venue	Kongres Park Liberec, Jeronýmova 570/22, Liberec, Czech Republic
